

# THE GROVE

**PRICKLY PEAR LAND TRUST**

connecting land and people

## WELCOME TO THE GROVE

This park is located on land that was the traditional territories of the Blackfeet, the Salish, the Kootenai, the Métis/Little Shell Chippewa, the Crow, and the Shoshone.

The land was remediated and restored following contamination from 100 years of lead smelting.

We invite you to explore the trails, enjoy Prickly Pear Creek and experience a piece of East Helena's industrious history.

Prickly Pear Land Trust's mission is to inspire connections to west-central Montana's landscapes, water, wildlife, recreation, and agricultural heritage through conservation, now and for future generations.

We hope you find those connections here.
